

PIN BRAZING ***EASYBOND MKII***

“ELECTRO-MECHANICAL SIMPLICITY”

Easybond Mk II (EBII)

The **Easybond MKII** unit is suitable for all types of minor installation and maintenance work. It is primarily for the occasional user who needs a simple, rugged and low cost machine. The unit is portable and easy to transport. The brazing process is controlled by means of the fuse wire on the brazing pin. The capacity is up to 30 brazes with the smallest type of brazing pin, and it can easily be increased by a battery charger mounted in a vehicle, the batteries being charged during transportation between workplaces.

- **50 Braze Capacity**

- **Heavy Duty Enclosure**

- **Charge/Braze Indicators**
Tells operator when to re-charge.

- **Lightweight - 20 kg**
Ideal for site work and easily transported.

- **Quick Change Battery Pack**
36V stand alone units with integral cables, loading strap and quick-change connectors.

- **Independent Battery Pack Charging**
With extra battery pack, operator can charge and braze at the same time.

BAC Corrosion Control Ltd has been assessed and certified as meeting the requirements of ISO 9001:2008, and only supply and endorse BAC Corrosion Control Ltd Pin Brazing products and consumables that are approved to that standard. If the use of non BAC Pin Brazing products and consumables is evident then warranties can be affected or even cancelled.
