

3M Cable End Caps

The 3M™ Cold Shrink EC-Series End Caps environmentally seal and mechanically protect exposed cable ends using no tools, mastics or tapes. Regardless of the cable type or manufacturer, it takes only four different end-caps to fit cable size ranges from 1.46" to 3.32" (11, 6 - 84,3 mm), reducing the need for additional inventory to cover all cable sizes. The 3M™ Cold Shrink EC-Series End Caps protects cables, pipes and other cylindrical objects from exposure to moisture, contamination, corrosion, ozone, ultra-violet radiation, physical contact and other environmental hazards.
