

CP TEST STATION

MODEL T-2 & T-4

The Model T-2 and T-4 CP Test Stations from Tinker & Rasor are "Condulet" style. The Model T-2 fits existing NPT threaded 3/4" OD riser pipe, and the Model T-4 fits existing NPT threaded 1" OD riser pipe.

The test stations include three (3) external binding posts standard. The posts are set on one inch centers to accomodate accessories such as bonding straps and shunts.

The Model T-2 and T-4 may also be customized to include more binding posts or banana plugs.

Both are made of a tough plastic resin material resistant to fire, UV exposure and impacts.

Construction:

Polycarbonate material (Lexan®) gives great UV stabilization, fire protection and impact resistance.

Binding posts are stainless steel for corrosion resistance.

Applications:

- Cathodic Protection connection point

Recommendations:

Use with optional items such as banana jacks for greater personnel safety.

Environment:

-76°C to 122°C (-105°F to 252°F)

Dimensions:

Complete Test Station:

T-2 - 1.65" x 1.70" x 4.90"

(41.9mm x 43.2mm x 124.5mm)

T-4 - 1.95" x 2.00" x 5.70"

(49.5mm x 50.8mm x 144.8mm)

Shipping -

Weight: 0.5 lbs (0.227 kg)

Dimensions: 6" x 6" x 4"

(152mm x 152mm x 101.6mm)

T-2 and T-4 test stations are threaded (NPT) to fit existing metal risers, 3/4" and 1" OD. Seven colors are available from stock and custom colors can be ordered.

New Cover design available that allows multiple terminal layouts.

New design also allows retrofit of terminal cover to metal cases.

Attachment clips lay in a channel so clips do not spin while attaching terminal board.
