

## AUDIO LOCATOR PROBE

## HANDHELD PROBE

Hand held probe for use with Model PD Mark IV Receiver.

The addition of the 45/90 Probe to the Model PD Pipe/Cable/Short Locator kit gives the operator a search coil much closer to the ground, saving the back strain of bending over on difficult locates.

The 45/90 also makes depth determination much easier!

WARRANTY: **90 Days**, parts and labor

The Model 45/90 Probe will work with both the Model Mark IV Receiver, part of the Model PD Pip/Cable/Short locator kit, and the Mark V Receiver, part of the Mark V Ranger kit

The Model 45/90 is very easy to use. The single plug-in cable connector is located at the top of the handle. The 45° bubble on the handle makes depth locating a breeze.
