

Copper-Sulfate Accessories by Tinker & Rasor

Copper Sulfate

Finely divided high-purity crystals. Available in 3/4 lb. and 2 1/2 lb. containers. Under normal conditions, a 3/4 lb. container will be sufficient to maintain one electrode for a year.

Anti-freeze Solution

For use with any T&R Electrode.
Permits potential measurements at temperatures as low as -10°F (-23°C) without danger of cracking the electrode tube. Available in 4 fl. oz. and 8 fl. oz. containers. Can be used year round.
